

THINKING OF HOME STAGING???
WHY NOT RENOVATE INSTEAD???

Staging is the process of preparing a home for sale with the goal of getting the most money in the shortest amount of time possible. It means presenting your home in the best possible light and making it stand out from the rest.

Staging consultation fees generally run from \$750 to \$3,500 and this is not including furniture and accessory rental!!!

Why not do some minor renovations instead? The process is basically the same only, with renovating, the money you spend goes into the property and is not used up in rental and consultation fees.

Small expenditures of money or time on carefully targeted projects can improve your chances of selling quickly -- and ensure you get the best price possible.

In addition to selling faster and at a higher price, the buyer 'gets what he sees'.

Our services are very affordable, cost effective and can be structured to provide as little or as much assistance as you would like. You don't have to spend a fortune renovating your house to ensure a quick sale at the best price. Some of the most effective fix-ups are also the cheapest.

We'll start by touring your property with fresh eyes, as if we were a prospective buyer, to pinpoint the projects that make the most sense.
